Support Programs

**Subject: CE Owners Group Submittal of CE NPSD-1045, "Joint
Applications Report, Modifications To The Containment Spray
and Low Pressure Safety Injection System Technical
Specifications", March 1998**

Gentlemen:

This letter submits CE Owners Group Joint Applications Report (JAR) for Modifications To The Containment Spray System and Low Pressure Safety Injection System Technical Specifications, report CE NPSD-1045. Enclosed for your use are 12 copies of the report. The enclosed report provides a technical basis for changing the CS and LPSI system Technical Specifications. The enclosed report was developed using the joint application/cross comparison process pioneered by the CEOG to support risk informed decisions.

The report is being submitted as part of a collaborative effort of participating Combustion Engineering Owners Group members. It is anticipated the CEOG members will shortly be submitting license amendments referencing the enclosed report. As a result, the CEOG requests a common review of the anticipated license amendment requests and the enclosed Joint Applications Report.

The NRC should address technical questions related to CE NPSD-1045 to the Chairman of the CE Owners Group. Invoices for review fees should also be directed to the Chairman with a copy to:
