SUBJECT: CORRECTIONS TO THERMAL LIMITS BASES

Dear Mr. Kingsley:

On September 4, 1997, Commonwealth Edison Company (ComEd) submitted a letter informing the NRC that Technical Specifications (TS) Bases sections 3/4.2.1 and 3/4.2.3 need to be revised to correct an editorial error in a reference number. On October 29, 1996, the NRC issued amendment numbers 116 and 101 to the TS for LaSalle, Units 1 and 2. These amendments changed various sections of the TS to reflect the transition of fuel supplier from General Electric to Siemens Power Corporation and included the correct reference in Bases sections 3/4.2.1 and 3/4.2.3. Amendment 101 for Unit 2 will be implemented prior to restart from the current LaSalle, Unit 2 outage and will correct the problem. However, amendment 116 for LaSalle, Unit 1 will not be implemented until the next refueling outage for that unit. Therefore, the staff approves the implementation of the change to the Bases sections discussed above and reflected on the revised Bases pages submitted with the September 4, 1997, letter, prior to implementation of the remainder of amendment 116.

Sincerely,

ORIG. SIGNED BY S.RICHARDS
