Letter, USNRC Region II Administrator, to P.B. Perez, NCSU, *Transfer  
of Non-Power Reactor Inspection Program*, dated 1 August 1997

Dear Sir or Madam:

North Carolina State University requests two modifications to the facility technical specifications.

- (1) The PULSTAR reactor site map shown in Figure TS 5.2-1 requires updating to reflect a recent street name change on the Campus of North Carolina State University.
- (2) The reference letter from Region II informs that all activities regarding non-power reactors are the responsibility of NRR effective on 4 August 1997. The PULSTAR reactor Technical Specifications are updated to reflect the NRC's administrative change. Specifically, the following Technical Specification subsections are updated to remove references to Region II:
  - (a) Section 6.7.1 Reportable Event
  - (b) Section 6.7.2 Permanent Changes in Facility Organization
  - (c) Section 6.7.3 Changes Associated with the Safety Analysis Report
  - (d) Section 6.7.4 Annual Operating Report
