ATTN: Byron Chandler

Dear Byron:

Enclosed are Rhone-Poulenc's corrected DOE/NRC 741 forms (3 copies) and Radioactive Material Shipment (RSR) forms (1 copy) for waste shipments during the period from July 15, 1984 through November 30, 1986. The DOE/NRC 741 forms have been corrected as required by the procedure detailed on Pages 18 - 20 of the United States Nuclear Regulatory Commission's Booklet, Instructions for Completing Nuclear Material Transactions Reports. The RSR forms have been corrected by completing the top half of the form.

Also enclosed are the log sheets which detail the corrections that were made and their effect on the Uranium and Thorium weights.

If you have any questions and need further clarification regarding these corrected forms, please feel free to call. We are deeply sorry for the inconvenience which this has caused.
