Dear Mr. Chappell:

Enclosed please find Test Plan number 76 for the model 660 projector in an ammo box for your review and approval. We have designated this Type B package configuration as the 660OP and the 660 OPL (for the version with lead inserts). This Test Plan describes the package configuration and the test orientations that we discussed.

We greatly appreciate your and your staff's assistance and look forward to hearing from you. If you require any additional detail, please contact me.

Sincerely,
