

December 2, 1975

Mr. E. Morris Howard
Regional Director
U. S. Nuclear Regulatory Commission
Office of Inspection and Enforcement
Region IV
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76012

Dear Mr. Howard:

We are in receipt of your inquiry dated November 26, 1975, regarding
Bulletin No. 75-07.

Federal-American Partners is a Uranium milling operation that does not
utilize Nitric Acid in any of its milling circuits. Consequently,
there does not appear to be the problem as defined in the Bulletin.

Very truly yours,

Thomas M. Hill
Project Manager
