Re: Docket No. 40-8602

Gentlemen:

In response to your letter of May 4, 1977, we will prepare an appropriate report regarding mill tailings management and reclamation as set forth in the meeting with Nuclear Regulatory Commission and Argonne Laboratory personnel in your Silver Springs, Maryland, office on June 8, 1977.

United Nuclear Corporation personnel in attendance at this meeting are most appreciative of the procedures established to systematically and efficiently expedite processing United Nuclear Corporation's License Application on the Morton Ranch Uranium Mill.

Very truly yours,
