TAC Nos. 65275/65276

Enclosed is the original and three (3) copies of Revision 41 of the Braidwood Nuclear Power Station Security Plan.

This submittal reflects the changes in the organizational structure of ComEd's Nuclear Security Department. The Station Security Administrator reports off-site to the Corporate Security Manager while maintaining an information and coordination channel to the Site Vice-president.

The Corporate Security Manager now has overall responsibilities for the Company's Nuclear Security Program and reports to the Senior Vice-President.

We have concluded that these changes do not decrease the safeguard's effectiveness of the plan. These enclosures contain Safeguards Information which must be protected from public disclosure pursuant to 10CFR 73.21.
