Subject: Request for Approval of a Conditional License for a Licensed Operator

Dear Mr. Beach:

By letter dated May 16, 1997 (Serial Number 1-1127), Toledo Edison notified the Nuclear Regulatory Commission (NRC) that licensed operator, Mr. Melvin J. Migot, Docket Number 55-31272, License Number OP-30630-1, was on medical leave with a potentially disqualifying medical condition and that Toledo Edison would notify the NRC upon a change in status.

Mr. Migot's medical condition was discussed with Ms. Mary Ann Bies, NRC Region III Operating Licensing Assistant, on June 19, 1997. As discussed in the June 19 phone call, Toledo Edison requests the NRC's approval of a conditional license for Mr. Migot in accordance with 10 CFR 55.25 and 10 CFR 55.33. A revised Medical Certification Form (NRC Form 396) and additional information regarding Mr. Migot's medical condition are being submitted. Details concerning the medical condition are considered confidential and exempt from public disclosure in accordance with 10 CFR 2.790 (a)(6).

During the June 19 phone conversation, Ms. Bies agreed that Mr. Migot could return to licensed duties with a "no solo" (i.e., another individual must be present when the individual is performing licensed duties) stipulation administratively in place while the NRC was evaluating the documentation.

Mr. Migot returned to work July 7, 1997. An examination performed by Toledo Edison's physician consultant and an evaluation by his supervisor verifying his ability to perform licensed duties were completed. Mr. Migot meets the "Conditions of licensees" set forth in 10 CFR
