SUBJECT: RESPONSE TO CONFIRMATORY ACTION LETTER 1-97-022

Dear Mr. Flenniken:

This refers to Mr. Norman Lanier's, Corporate Radiation Safety Officer, letter dated October 14, 1997, in response to our Confirmatory Action Letter (CAL) 1-97-022, dated September 18, 1997. Based on his response letter, the NRC has found that one of the two commitments listed in the CAL have been met.

In Mr. Lanier's letter he requests that the NRC grant a 30 day extension in order to meet all the commitments listed in the CAL. An extension has been granted and a completion date of November 21, 1997 has been established.

Pursuant to Section 182 of the Atomic Energy Act, 42 U.S.C. 2232, you are required to:

- 1) Notify me immediately if your understanding differs from that set forth above;
- 2) Notify me if for any reason you cannot complete the actions within the specified schedule and advise me in writing of your modified schedule in advance of the change; and
- 3) Notify me in writing when you have completed the actions addressed in the Confirmatory Action Letter.

Thank you for informing us of the actions documented in your letter. These actions will be examined during a future inspection of your licensed program. Your cooperation with us is appreciated.

If personal privacy or proprietary information is necessary to provide an acceptable response, then please provide a bracketed copy of your response that identifies the information that should be protected and a redacted copy of your response that deletes such information. If you request withholding of such material, you must specifically identify the portions of your response that you seek to have withheld and provide in detail the bases for your claim of withholding (e.g., explain why the disclosure of information will create an unwarranted invasion of personal privacy or provide the information required by 10 CFR 2.790(b) to support a request for withholding confidential commercial or financial information). If safeguards information is necessary to provide an acceptable response, please provide the level of protection described in 10 CFR 73.21.
