Dear Mr. Katsuragawa:

Thank you for your letter of June 30, 1997 informing me of your pending departure from PNC and move to Nuclear Energy Systems. Your many years of experience at PNC will provide you with a strong background and useful perspective to face the challenges in your new position as Director of the Software Development Center.

I wish to thank you again for the strong support that you provided to me during my April 1996 visit to Japan. Our discussions provided me with valuable insights to Japan's nuclear program.

Please accept my best wishes for success in your new position.

Sincerely,

Shirley Ann Jackson
