Subject: **Browns Ferry Nuclear Plant - Site Emergency Plan Implementing Procedure Revision**

In accordance with the requirements of Title 10 of the Code of Federal Regulations (10 CFR) 50.54(q); 10 CFR 50, Appendix E; and 10 CFR 72.44(f), the Tennessee Valley Authority (TVA) is submitting a description of changes to the Browns Ferry Nuclear Plant (BFN) Radiological Emergency Plan. The affected document is the BFN Emergency Plan Implementing Procedure (EPIP) named below.

<u>EPIP</u>	<u>Revision</u>	<u>Title</u>	<u>Effective Date</u>
EPIP-1	0060	Emergency Classification Procedure	7/8/2020

Description of Changes and Summary of Analysis

EPIP-1 Revision 60 was revised to update wording concerning State notification from “less than fifteen (15) minutes” to “within 15 minutes” to align with wording in 10 CFR 50 Appendix E, Section IV.D.3, and the Radiological Emergency Plan (Generic Part) Sections 5.2.1.A and 5.2.4.C. This activity was determined to be a change to the radiological emergency plan that was not editorial or typographical in nature. This change was also determined to not conform to an activity that has prior approval. Planning Standards 10 CFR 50.47(b)(5) – Notification Methods and Procedures was determined to be impacted by this change; therefore, it was concluded that this activity could not be implemented without performing a 50.54(q) reduction in effectiveness evaluation. Upon completion of the Effectiveness Evaluation Form it was concluded that the activity continues to comply with the requirements of 50.47(b) and 50 Appendix E, and the activity does not constitute a reduction in effectiveness. Therefore, the activity was allowed to be implemented without prior approval.
