Marlayna,

My comments for the record from todays discussion:

I am an 74 year old citizen and my name is Janet Jodlowski (9150 Florence Road, Kirtland, Ohio 44094).

First I appreciated hearing all the comments today and was impressed with the technical level of understanding many had.

I have this to say as an ordinary citizen.....Don't dump radioactive waste in my landfill!!!!!!

Even my 84 year old husband said "We are told not to put old batteries and old smoke detectors in the trash because they may leak radioactivity."

Also please extend the comment period for 6 months after the Coronavirus crises is over as he coronavirus gives us plenty to deal with!!!!!!!

I see **NO** benefit to us as private citizens, the only benefit I see to this is to the nuclear industry!!!

My husband says this should have been taken care of years ago.

Frank and Janet Jodlowski
