Subject: [External_Sender] NRC License # 10-35278-01

NRC 10-35278-01

Applied Technical Services has an immediate need to update the above license and would like to amend to include:

3 each - Sentinel Sentry model 330 Co-60 exposure device CoC # 9357

3 each - Sentinel Isotope Co-60 model A424-13 sealed source

We are asking an expedited review of this request due to the short notice we were given for the job (this week).

Thank you and if you have any additional questions, please contact me either through email or on my cell phone.

Sincerely,
