Hello Mr. Cox,

We are near completion of amendments for the Shearon Harris Nuclear Power Plant, Unit 1 to revise their Technical Specifications (TS) requirements for mode change limitations in Limiting Condition for Operation (LCO) 3.0.4 and Surveillance Requirement (SR) 4.0.4 to adopt the provisions of Industry/Technical Specification Task Force (TSTF) change 359, "Increase Flexibility in Mode Restraints." The availability of TSTF-359 for adoption by licensees was announced in the Federal Register on April 4, 2003 (68 FR 16579).

The application is dated February 5, 2020, (ADAMS Accession No. ML20041F551).

The no significant hazards consideration determination was noticed in the Federal Register on May 19, 2020 (85 FR 29984), attached.

Please respond if you have any or no comments.

Thanks

Mike Mahoney
