

NO. 50-205
(Suppl)
I&R File Copy

1733 Walnut Street
El Cerrito, California 94530
September 4, 1963

Dr. Glenn T. Seaborg, Chairman
Atomic Energy Commission
Washington, D.C.

Dear Dr. Seaborg:

I urge you to turn down the request of the Pacific Gas and Electric Company for construction of a reactor at its proposed Bodega Head site. The reasons, which have been given by the opponents of the construction, that I support are:

- 1) The site is a valuable scenic and marine biological resource, the quality of which would be impaired seriously by the proposed construction.
- 2) Proximity to the San Andreas Fault leaves open the possibility of a catastrophic occurrence, which might result in excessive amounts of radioactive material polluting the environment.

Yours Sincerely,

Paul Concus
