

AUG 31 1987

Girardeau Contractors, Inc.
P. O. Box 880
ape Girardeau, MO 63702-0880

Gentlemen:

Enclosed is your NRC License Number 24-21044-02 in accordance with your request.

Please note that the NRC has not included authorization for you to use the gauge in the State of Illinois (refer to License Condition 10). Illinois is now an Agreement State and as such they are responsible for licensing and inspection of all uses of radioactive material in the state. For further information on obtaining an Illinois license or for using the gauge in Illinois on a temporary basis contact: David Price, Illinois Department of Nuclear Safety, 1035 Outer Park Drive, Springfield, Illinois 62704, or telephone (217) 546-3100.

Please review the enclosed document carefully and be sure that you understand all conditions. You must conduct your program involving radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, note that you must:

1. Operate in accordance with NRC regulations 10 CFR Part 19, "Notices, Instructions and Reports to Workers; Inspections," 10 CFR Part 20, "Standards for Protection Against Radiation," and other applicable regulations.
2. Possess radioactive material only in the quantity and form indicated in your license.
3. Use radioactive material only for the purpose(s) indicated in your license.
4. Notify NRC in writing of any change in mailing address.
5. Request and obtain appropriate amendment if you plan to change ownership of your organization, change locations of radioactive material, or make any other changes in your facility or program which are contrary to your license conditions or representations made in your license application and any supplemental correspondence with NRC. Any amendment request should be accompanied by the appropriate fee specified in 10 CFR Part 170.
6. Submit a complete renewal application with proper fee or termination request at least 30 days before the expiration date on your license. You will receive a reminder notice approximately 90 days before the expiration date. Possession of radioactive material after your license expires is a violation of NRC regulations.

B801050433 870831
REG3 LIC30
24-21044-02 PDR

7. Request termination of your license if you plan to permanently discontinue activities involving radioactive material prior to your expiration date.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions and representations in your license application will result in enforcement action against you in accordance with the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

If you have any questions or require clarification of any of the above stated information, contact us at (312) 790-5625.

Sincerely,

Original Signed By
Evelyn R. Matson
