Glen Ellyn, IL 60135

Attention: Material Licensing Section
Amendment to NRC License No. 21-13783-02

Enclosed you receive, in duplicate, our Application for Byproduct Material License for the amendment of our License Number 21-13783-02. I will draw to your attention that this present amendment is in addition to our application of the same license dated April 29, 1987 and having your Control No. 83495.

The source for which this application is made is supplied by Texas Nuclear, it contains 100 mCi of CS-137 and is a Texas Nuclear Model 5200 in a Texas Nuclear Model 696894 capsule.

This source will be used for level detection in the lime kiln in our Croswell Plant.

Sincerely,

8801050463 870723
