Materials Licensing Branch
United States Nuclear Regulatory Commission
Region I
63 Park Avenue
King of Prussia, PA 19406

References 1. NRC License No. 37-1904-07
2. Control No. 03044

We are applying for an amendment to our license requesting that Mr. Daniel Ellenberger be designated as the Radiation Protection Officer for the referenced license.

Our present RPO, Mr. Michael T. Gower, will be retiring from Action Mfg. Co. on June 5th, 1987. Mr. Ellenberger has been trained by Mr. Gower and has worked closely with him for the past twelve months in the control of all radioactive sources, monitoring radiation contamination/leakage, handling and safety. This training has been continuous on the job, "hands-on" type of instruction.

It is also noted that Mr. Ellenberger attended a course in "Radiation Safety Principles and Procedures" at North Carolina State University in Raleigh, N.C. The program provided both lectures and hands on laboratory experience in:

1. Radioactivity (Theory and Physics)
2. Instrumentation (Survey instruments and Liquid Scintillation)
3. Calculations (Measurements and Statistics)
4. Radiation Safety (Safe Practices and Regulations)
5. Health Physics (Radiation and Biological effects)

We believe that Mr. Ellenberger is by his exemplary record as Safety Manager, training and education, fully competent to be designated as the RPO for this license.

If there are any questions, or you require additional information or clarification, please do not hesitate to contact the writer directly.

Very truly yours,

ACTION MANUFACTURING COMPANY
