REACTOR CONTAINMENT HANDBOOK

ORNL (W.B. Cottrell) has requested comments of the ACRS on various chapters of the Reactor Containment Handbook being prepared by Oak Ridge for the AEC. Dr. Kouts has requested that you review Chapter 3 attached and prepare any comments you may have for transmittal to Oak Ridge. We will combine your comments with those of other Committee members, if you desire. Oak Ridge has requested comments by April 30, 1964. We would appreciate receiving them no later than April 24, 1964. Please return Chapter 3 when you have completed your review since it is the only copy that this office has for its files.
