Dear Dr. Glenn:

This communication concerns our desire to terminate our NRC license No. 20-03022-03. We seek this because the two sealed sources which required the license have been returned to the manufacturers for disposal. Attached is a copy of the certificate of disposal, attesting to the proper disposal of the sources.

If further information on this matter is required, please advise.

Yours sincerely,

John P. Sullivan
Radiation Safety Officer
