REACTOR CONTAINMENT HANDBOOK - REQUEST FOR COMMENTS

ORNL has requested comments on the proposed chapters for the Reactor Containment Handbook to be published by ORNL for the AEC. Dr. Kouts has requested that you review the attached chapters and submit any comments you may care to make.

Please note that comments have been requested by ORNL by March 15, 1964. We will be happy to provide any assistance you may require in transmission of your comments to Oak Ridge.

I would appreciate return of these chapters when you have finished with them since they are the only set we have.

Attached:

1. Outline, Reactor Containment Handbook
2. Chapter 7, Containment Proof Testing, dtd Feb. 1964
3. Chapter 9, Design Details, dtd Feb. 1964
