Mr. Leigh S. Shoemaker
Member of the Board of
Supervisors of the 2nd District
County of Sonoma
Santa Rosa, California

Dear Mr. Shoemaker:

Thank you very much for your letter of December 31, 1962, regarding the press announcement on a hearing to be held in California on the application of the Pacific Gas and Electric Company to construct a nuclear power plant at Bodega Bay.

The Commission decided in late December that it would hold a public hearing in California on this matter and I am enclosing for your information a copy of the press announcement which the Commission issued for release on January 2, 1963.

The exact place of the hearing in California has not yet been determined, but it will be our purpose to hold it at a convenient place in the local area.

Sincerely yours,

(Signed) H. L. Price

FOR IMMEDIATE RELEASE
(Wednesday, January 2, 1963)

AEC RECEIVES APPLICATION FOR CONSTRUCTION PERMIT
FOR PACIFIC GAS AND ELECTRIC COMPANY POWER REACTOR

The Atomic Energy Commission has received an application from Pacific Gas and Electric Company for a permit to construct a 325,000 electrical kilowatt nuclear power plant at Bodega Bay, approximately 50 miles northwest of San Francisco.

Construction of the plant, powered by a boiling water reactor, is proposed on a 225-acre tract at the south end of Bodega Head, a peninsula separating Bodega harbor from the Pacific Ocean.

The application of PG&E will be reviewed by the AEC regulatory staff and by the Commission's Advisory Committee on Reactor Safeguards. Before the Commission can make a determination on the application, a public hearing, as required by law, must be held. In view of the public interest in the proposed reactor, AEC has decided that the hearing will be held in California.

Copies of the PG&E application are available for public inspection at the Commission's Public Document Room, 1717 H Street NW, Washington, D. C., and at the Commission's San Francisco Operations Office, 2111 Bancroft Way, Berkeley, California.
