ROKE

OIL ENTERPRISES LTD.

The United States Nuclear Regulatory Commission
Division of Fuel Cycle and Material Safety
Office of Nuclear Material Safety, and Safeguards,
Washington, D.C.
20555
U.S.A.

Dear Sirs:

Enclosed please find the following information to renew our U.S.
Nuclear Regulatory Commission Materials License 27-16976-01 :

1. 2 copies of Form NRC-3131, duly signed.
2. Additional information regarding Form NRC-3131.
3. The required fee in the form of a bank draft for \$460.00.

Roke Oil Enterprises Ltd. is a Canadian Company with an American subsidiary Company called Roke Electrical Logging, Inc. with its registered office at 604 Lander Street, Reno, Nevada, 89509.

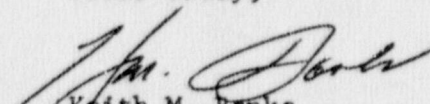

We have a Canadian Radioisotope License - since 1967. Enclosed is a copy of our Canadian License.

We are required to wear badges under our Canadian license. We would like to continue using the Canadian Badge Monitoring System until such time we operate on a permanent basis in the United States. When we operate on a permanent basis in the United States, we will apply for films from Tracelab, Inc.

The reason for the delay in applying for our renewal is because of a lengthy postal strike in Canada.

If you require further information, please contact us. Your immediate attention would be appreciated. Thanking you in advance,

Yours truly,

Keith M. Banks
President
