Dr. Glenn T. Seaborg, Chairman
United States Atomic Energy Commission
Washington 25, D. C.

Dear Sir:

In a resolution unanimously passed by the Fresno County Democratic Central Committee on Tuesday, August 13, 1963, the Committee joined with Lt. Governor Glenn Anderson in urging the Atomic Energy Commission to withold issuing of a permit to the Pacific Gas and Electric Company for the operation of a nuclear power reactor at Bodega Bay.

Full text of the resolution adopted follows:

Whereas the scenic beauty of Bodega Bay on the Northern Coast of California is part of the natural heritage of California which should be preserved in the interest of past and future generations, and Whereas the Pacific Gas and Electric Company's proposed nuclear power reactor is located within a mile of the San Andreas fault, the earth's greatest continental fault line and Whereas Public Utilities Commissioner William M. Bennett's dissent has raised serious and unanswered questions about both the safety and the social value of a nuclear reactor at Bodega Bay,
Therefore, the Fresno County Democratic Central Committee requests the Public Utilities Commission of California to reconsider its decision granting Pacific Gas and Electric use of the Bodega site and further suggests the Public Utilities Commission of California to reconsider its decision granting Pacific Gas and Electric use of the Bodega Bay site and furthe suggests the Public Utilities Commission require the Pacific Gas and Electric Company to find another site more compatible with the public interest.
Further, we join with Lt. Governor Glenn Anderson in urging th Atomic Energy Commission to withhold issuance of a permit to the Pacific Gas and Electric Company for operation of the proposed Bodega Bay nuclear plant.

Sincerely,

FRESNO COUNTY DEMOCRATIC CENTRAL COMMITT
