March 29th, 1964

Mr. Glenn Seaborg,
Chairman, Atomic Energy Commission
Washington, D.C.

Dear Mr. Seaborg,

As you may be aware the Pacific Gas & Electric Co., of California is proceeding with the installation of an atomic energy reactor at a site located on Bodega Head, Sonoma County, California.

The recent disaster which struck Alaska as the result of an earthquake should cause all thinking people in this country to question the wisdom of installing an atomic reactor on a site which borders on the famous San Andreas Fault.

I respectfully call upon you to exercise your power as Chairman of the A.E.C. to review and if necessary prohibit the construction of this plant as currently proposed.

Sincerely yours,

Jack Brandon
