Mr. Robert E. Wilson
Acting Chairman
Atomic Energy Commission
Washington, 25, D. C.

Dear Mr. Wilson:

As you know, the Pacific Gas and Electric Company's proposal to construct a nuclear reactor plant at Bodega Bay in the First Congressional District of California has created considerable public interest in the entire area. Naturally, I am vitally interested in any and all developments regarding this project.

To bring my files up-to-date, may I have the following information:

1. Copies of the recent exchange of letters between Secretary Udall and the Commission, if this is considered proper.
2. A copy of the Geological Survey report regarding the construction site in relation to the San Andreas Fault when this report is made available to you.
3. The date of the Atomic Energy Commission's hearing on this project in Santa Rosa, California, as soon as this is decided.

*5/23 To Udall (1963) ad
5/20 from Udall (1963) ad
(Chapman)*

I will appreciate your co-operation in keeping me informed so that I may assure my constituents that full and complete hearings will be heard swiftly, and so that the fate of this project can be decided soon.

Sincerely,

Don H. Clausen
