Dear Miss von Dann:

In accordance with your letter of November 6, 1964, to Mr. Harold L. Price, I am enclosing the materials requested pertaining to the proposed reactor at Bodega Head. Please note that the press release has two attachments: (1) the letter report from the Advisory Committee on Reactor Safeguards, and (2) the hazards analysis by the Division of Reactor Licensing. I think you will find the other materials self-explanatory.

Sincerely yours,

Roger H. Jones
Assistant to the Director
Division of Reactor Licensing
