

December 29, 1987

Docket No. 50-334

Mr. J. D. Sieber, Vice President  
Duquesne Light Company  
Nuclear Operation  
Post Office Box 4  
Shippingport, PA 15077

Dear Mr. Sieber:

SUBJECT: BEAVER VALLEY UNIT 1 - CYCLE 7 RELOAD (TAC 66617)

By letter dated November 12, 1987, you submitted a Westinghouse report entitled "Reload Safety Evaluation, Beaver Valley Nuclear Plant, Unit 1 Cycle 7". The report was submitted to describe design changes to be implemented on Cycle 7 of the unit, and to document your evaluation of the safety of these changes.

We have completed our review of your submittal and conclude that the Cycle 7 design described does not cause previously acceptable safety limits to be exceeded, and is thus acceptable. Details may be found in the enclosed safety evaluation. This completes our work on the subject issue.

Sincerely,

**"ORIGINAL SIGNED BY"**

Peter S. Tam, Project Manager  
Project Directorate I-4  
Division of Reactor Projects I/II

Enclosure:  
As stated
