UNITED STATES
DEPARTMENT OF THE INTERIOR
OFFICE OF THE SECRETARY
WASHINGTON 25, D. C.

JUN 17 1963

Mr. Charles T. Edwards:

In accord with Mr. Bettie's phone conversation with you this afternoon, we are enclosing a copy of the letter being used by Secretary Hall to acknowledge most of the communications which he has received with regard to the proposed location of a civilian nuclear power plant on Solega Road, Seneca County, California. You indicated that many of these correspondents have sent copies of their letter to the Atomic Energy Commission.

On further inquiry, we find that our automatic equipment for handling an acknowledgment of this kind does not provide us with a list of names (and addresses) to whom the acknowledgment has been sent.

If we do compile such a list, you will receive a copy.

Sincerely yours,

H. P. Caulfield, Jr.
Henry P. Caulfield, Jr.
Acting Director
Resources Program Staff

Mr. Charles T. Edwards
Division of Licensing and Regulation
U. S. Atomic Energy Commission

Dear

Your recent communication--indicating agreement with the position expressed in my May 20 letter to Dr. Glenn T. Seaborg, Chairman of the Atomic Energy Commission, with regard to proposed location of a large civilian nuclear power plant on Bodega Head, Sonoma County, California--is appreciated.

You will, I am sure, be pleased to know that the Atomic Energy Commission has requested a thorough study of the geological and seismic aspects of the Bodega Head site by the Geological Survey. That work already has been started.

I invite communication at any time when you have views to express on any matter of public policy in which this Department has direct or indirect responsibilities--and regardless of whether you agree with my position or not. Whatever your comments or recommendations may be, you can be assured they will carefully be considered.

Sincerely yours,

Secretary of the Interior

I am
enclosing a ^{copy} letter I wrote to
Stewart Udall, secretary of the interior
regarding Bodega Bay. This is a
fruit and dairy country and
would be very sensitive to fallout
and Bodega is an important
fishing port and the ^{only} best harbor
between San Francisco and Fort
Bragg. I beg that you consider
these things very carefully.

Respectfully yours
(Rus) Dean Ireland

Stewart L. Udall
Secretary of the Interior
Washington, D. C.
Dear Secretary Udall:

It is most heartening to know - that you have the courage to speak out on the hazards of placing a huge atomic reactor practically on an earthquake fault.

A friend of mine built a housing project on a beautiful cliff which turned out to be an earthquake fault. It is now a shambles thru slippage and the courts held him responsible.

Thank you so much.

Sincerely,
(ms) Jean Duland
