

DEC 24 1987

Docket No. 50-312

Rancho Seco Nuclear Generating Station
Sacramento Municipal Utility District
14440 Twin Cities Road
Herald, California 95638-9799

Attention: Mr. G. Carl Andognini
Chief Executive Officer, Nuclear

SUBJECT: NRC INSPECTION OF RANCHO SECO

This refers to the routine inspection conducted by Mr. C. Ramsey of this office on November 16 through November 19, 1987, of activities authorized by NRC License No. DPR-54, and to the discussion of findings held with Mr. Tipton and other members of your staff at the conclusion of the inspection.

The inspection was an examination of your corrective actions on previously identified open items relating to fire protection. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. Based on your comments at the exit meeting and in a meeting held at the Region V office on November 21, 1987, our understanding of corrective actions you will take on the concerns raised by the inspector prior to and post restart is summarized in appendices A and B of the report.

No violations of NRC requirements were identified within the scope of this inspection.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this inspection, we will be glad to discuss them with you.

Sincerely,

Original signed
Robert J. Pate, Chief
Reactor Safety Branch
