DOCKET NO. 50-312
RANCHO SECO NUCLEAR GENERATING STATION
LICENSE NO. DPR-54
OFFSITE DOSE CALCULATION MANUAL (ODCM)

Dear Mr. Miraglia:

The District hereby submits the approved Rancho Seco Offsite Dose Calculation Manual (ODCM), AP.310 Revision 5, for your review to support the evaluation of Proposed Amendment No. 155, Revision 2. The attached ODCM represents a significant rewrite of the previous ODCM submitted to you via letter GCA 87-737, dated 10/30/87. The revised ODCM incorporates the results of verification and validation (V&V) as well as NRC and internal reviews.

In preparing the ODCM an independent third-party V&V was conducted to provide assurance that the ODCM is ready to support plant operations. The District is compiling an ODCM V&V report and will maintain the report in Rancho Seco files for future reference.

Please contact me if you have any questions. Members of your staff with questions requiring additional information or clarification may contact Mr. Richard Mannheimer at (209) 333-2935, extension 4919.

Sincerely,

G. Carl Andoghini
Chief Executive Officer,
