E. G. Case, Acting Director of Licensing

NEED FOR TOP LEVEL MEETING WITH GENERAL ELECTRIC

As you know we have mentioned a growing need for REG discussions with GE at the top level of management with respect to GE performance. We have been experiencing continuing problems in obtaining information (design and analyses) from GE on a timely basis. This condition, of course, hampers our efforts to conduct our reviews as scheduled. The purpose of this memorandum is to urge that you arrange a meeting between Mr. Muntzing and Mr. Stathakis of General Electric. We will, of course, help brief Mr. Muntzing in advance of such a meeting. Attached for your use is a memorandum from V. Moore which identifies the many unresolved items that have been developing with GE both on specific projects and generic issues.
