Gentlemen:

River Bend Station - Unit 1
Refer to: Region IV
Docket No. 50-458/Report 85-31

This response supplements Gulf States Utilities Company's (GSU) letter dated September 2, 1985, concerning the Notice of Violation contained in NRC Inspection Report No. 50-458/85-31.

GSU had previously committed to revise surveillance test procedures (STP) by December 31, 1986 to incorporate changes made to the Integrated Leak Rate Test (ILRT) procedure 1-PT-57-1.

The next performance of this STP is scheduled during the second refueling outage, therefore GSU is scheduling completion of this commitment by December 31, 1987.

Sincerely,

J. E. Booker
