Subject: License Renewal

Dear Sir:

In February, 1982, your agency ^{Retired} sent out an expiration notice pertaining to our license number 13-17366-01. This license expired on 5-31-82. The renewal notice was sent to the Corporate Headquarters in Fort Wayne, Indiana. Having been mistakenly misplaced, the renewal notice just now has reached our plant.

Having contacted the office of your Mr. Bruce Mallett, the secretary advised me that the license would be handled as a new license rather than a renewal since it was past the renewal date. Please except our apologies for the confusion.

Under our old license, we had two level indicating devices licensed. We plan to dispose of one of these devices and keep in operation the second. We have attached the appropriate paper work for these changes along with the licensing fees.

In the future, I would request that you direct all correspondence to the plant location rather than the main office and this will help us expedite any necessary correspondence.

If you have any questions, please feel free to contact us.

Sincerely,

Chuck Janiszewski
Plant Manager
