

BAY AREA CHAPTER
Northern California Association
To Preserve Bodega Head and Harbor
222k ~~Durant Avenue~~ • Berkeley, California
2820 Telegraph Ave.

T NO. 50-205
(supp)

February 20, 1964

Dr. Glenn T. Seaborg, Chairman
U.S. Atomic Energy Commission
Washington 25, D.C.

Dear Chairman Seaborg:

The enclosed petitions to the President were signed at the time that it appeared still unclear whether the U.S. Geological Survey would participate in deliberations over a proposed nuclear power plant at Bodega Head.

The petitions are being forwarded for your information. In light of the recent findings of the U.S. Geological Survey with respect to geological and seismological conditions at the proposed Bodega Head site, it seems more appropriate that you should receive these petitions rather than the President.

May we extend our warmest thanks for the way your Commission has approached this controversy and the prompt manner in which findings have been made available to the public.

Sincerely,

David E. Pesonen
Executive Secretary

Encl:

Purpose: To work for preservation of the scenic and historic headlands of Bodega Bay and to insure the ecological integrity of the surrounding marine environment.
