

DLR:CTE
Docket No. 50-205

NOV 7 1963

Mrs. Charlotte Conrad
1026 Ovejas Avenue
Davis, California

Dear Mrs. Conrad:

This replies to your postcard dated October 11, 1963 addressed to Chairman Seaborg concerning the nuclear reactor proposed for construction at Bodega Bay, California.

Enclosed is a pamphlet which describes the procedures relating to the licensing of power reactors by the Atomic Energy Commission. We feel confident that these procedures and their provision for public hearing will assure thorough consideration of all aspects of the proposed plant bearing upon the question of whether it can be constructed and operated at the proposed site without undue risk to the health and safety of the public.

However, such matters as local zoning, conservation and the esthetics of a proposed reactor site are matters within local and state jurisdiction and are not within the purview of the Atomic Energy Commission.
