 Engineering and Construction
 1900 Pennsylvania Avenue, NW.
 Washington, D. C. 20006

Gentlemen:

This letter is in regard to a change in the established schedule for our environmental review of your application for construction permits for your proposed Douglas Point Nuclear Generating Station, Units 1 and 2. We have now targeted the issuance of the Final Environmental Statement for November 22, 1974.

Our best estimate for commencing the environmental hearings is January 21, 1975. It should be realized that these dates are target milestones which may require some changes, and that better estimates for the hearing process may be available after the forthcoming prehearing conference has been held.

Sincerely,

Original signed by Daniel R. Muller
 Daniel R. Muller, Assistant Director
 for Environmental Projects
 Directorate of Licensing
