Office of Radio Hydrology  
Water Resources Division  
U. S. Geological Survey  
Washington, D. C. 20242

Dear Mr. Schneider:

In accordance with the understandings which were reflected in Secretary Udall's letter of March 20, 1964, to Chairman Seaborg, I am forwarding Volumes I, II, III and IV of the Preliminary Safety Analysis Report filed by the Long Island Lighting Company as part of its application for licenses to construct and operate the Shoreham Nuclear Power Station Unit 1 at its site on the north shore of Long Island in the town of Brookhaven in Suffolk County, New York.

We would appreciate receiving the results of a review by the Geological Survey of those hydrological features of the proposed reactor location which may have a bearing upon our evaluation of the suitability of the proposed site.

Sincerely yours,

Original signed by:
