RE: License No. 24-20371-01
Renewal of By-Product Material License - Industrial

Dear Sir:

Upon review of our current license, the information concerning our sealed sources and portable gauging devices accurately represent our current and anticipated program. No additions or deletions are needed at this time.

On June 2, 1986, a request for an amendment to our license was sent to your office. We received the amendment, reference No. 030-18311 dated October 29, 1986. An updated list of authorized personnel to operate the portable gauging devices is enclosed with a copy of their certificate of completion in a basic training course on Radiation Safety And Use Of Nuclear Soil Gauges.

We therefore request renewal of our By Product Material License - Industrial. If you have any questions regarding our renewal request, feel free to call us at (314) 364-8900.

Very truly yours,

William E. Anderson

William E. Anderson, P.E.
