Dr Seaborg,

DOCKET NO. 50-205

It does indeed seem to be a waste of the taxpayers money to hold the upcoming AEC hearings about the Bodega Bay PG+E plant in Santa Rosa, Calif when by the AEC's own report to the President on Civilian Nuclear Power this reactor seems to be already affirmed with the mere formality to be concluded. Why should we pay for a sop to our intelligence?

ACTION.

As one who opposes this plant on safety,  
conservation, and, frankly that old fashioned  
term, a moral level - I find it repugnant  
to find the very agency supposedly standing  
for the safeguards of our health considering  
any amount of money already spent by PG&E  
and for the advancement of atomic uses on  
a civilian level with one hair on any of  
my children's heads.

Sincerely,

(Mrs) Ula F. Mannion
