Dear Eric:

I wish to nominate Mr. Ed Warman of Stone and Webster Engineering Corporation to be a member of the group you are bringing together to provide a peer review of NUREG-1150. Ed and I have been friends and have worked together for many years, and I can testify to his competence and intellectual integrity. During the work leading to the 1984 Report of the Special Committee on Source Terms, he had more fresh and original ideas than any other committee member. He states his ideas clearly and forcefully. He would be a valuable member of your team.

Sincerely yours,

Bill Stratton
