Docket No. 030-14941

License No. 18-18367-01

Mount Desert Island Hospital  
ATTN: James Mroch  
President  
Wayman Lane  
Bar Harbor, Maine 04609

Gentlemen:

Subject: Routine Inspection No. 87-001

On June 25, 1987, Michael A. Varela of this office conducted a routine, unannounced safety inspection at Mount Desert Island Hospital of activities authorized by the above listed NRC license. The inspection was an examination of your licensed activities as they relate to radiation safety and to compliance with the Commission's regulations and the license conditions. The inspection consisted of observations by the inspector, interviews with personnel, and a selective examination of representative records. The findings of the inspection were discussed with yourself and Leanne Linscott, NMT of your staff at the conclusion of the inspection.

Based on the results of this inspection, it appears that your activities were not conducted in full compliance with NRC requirements. A Notice of Violation is enclosed as Appendix A and categorizes each violation by severity level in accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (Enforcement Policy). You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Items 1. and 2.(a) in the Notice of Violation enclosed with this letter were identified during a previous inspection of your licensed program and documented in a Notice of Violation enclosed with our letter dated November 16, 1984. From this inspection it appears that your corrective actions were not effective since these items have recurred. Recurrent and uncorrected violations are given additional weight in the consideration and selection of appropriate enforcement action. Therefore, in your response to this letter, you should give particular attention to those actions taken or planned to ensure that identified items of noncompliance will be completely corrected and will not recur.
