RE: Byproduct Material License 25-23319-01  
Kerin and Associates Consulting Engineers  
Bozeman, Montana

Dear Mr. Scroggins:

We received your agency's notice of revocation of our above referenced license to operate our Troxler 3400B Series surface moisture-density gauge. We have unsuccessfully requested, by phone, that your agency reinstate our current license without filing a new application.

While I continue to feel your inspection fee of \$530 is an excessive one for our gauge files, facilities, etc., and certainly comes at a difficult time for us, I am enclosing a check in the amount of \$450.55. We are also enclosing a new application, similar to our previous one. We ask you accept our check as payment for your past due fee plus interest and penalty including the processing of our new application, which is attached.

If for some reason, you cannot or will not include the processing of our new application in this amount, we ask you let us know immediately.

This is a good faith effort on our part to reinstate our license with your agency.

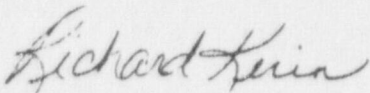

The certificate from Troxler (Troxler's Certificate of Training) is forthcoming.

We sincerely hope you will find our offer here acceptable. If you have any questions, please call me.

Sincerely,

Richard T. Kerin, P.E.
