Dear Mr. Skovholt:

We have received your letter of November 7, 1972, requesting an index to the documents in the Quad-Cities dockets similar to the index which we have volunteered for Dresden Units 2 and 3.

We would like to defer consideration of this request for two reasons. First, we feel that the information in the Quad-Cities dockets is in much better order than that in the Dresden dockets. The need for an index to this material is less apparent than in the case of Dresden. Second, we consider the Dresden index to be something of an experiment and would like to test its usefulness before committing ourselves to its use on any other dockets. A chronological index to questions on each chapter of the Zion FSAR is already included in that FSAR and may well prove to be a handier tool than the proposed Dresden index.

It is therefore proposed to defer a decision on action to be taken with respect to the Quad-Cities docket until the Dresden plan is implemented and reviewed by your staff.

Very truly yours,
