U.S. NUCLEAR REGULATORY COMMISSION

DOCKET NOS. 50-440, 50-441

CLEVELAND ELECTRIC ILLUMINATING COMPANY, ET AL.

PERRY NUCLEAR POWER PLANTS, UNITS 1 & 2

RECEIPT OF PETITION FOR DIRECTOR'S DECISION UNDER 10 CFR §2.206

Notice is hereby given that, in a Petition pursuant to 10 CFR §2.206 dated June 5, 1987, Toledo Coalition for Safe Energy, Susan B. Carter, Sunflower Alliance, Inc. and Steven Sass (Petitioners) requested that operation of the Perry Nuclear Power Plants (Perry facility) of the Cleveland Electric Illuminating Company, et al., (Licensees) be suspended immediately pending full consideration of certain issues raised in the Reed Report prepared in 1975 by a team of General Electric engineers. The Petition alleged that the Reed Report identified problems with the General Electric BWR 6/Mark III containment boiling water reactor, specifically: (1) technology to fix problems would not be available; (2) the design is unusually subject to earthquake hazards; (3) plant workers might be unusually subject to radiation exposures; (4) safety systems contained in the design had not been subjected to adequate testing; and (5) inadequate or undertested metals could create defectively performing systems.

P PDR

In addition to seeking an immediate suspension of facility operation, the Petition requested an exhaustive review by an independent study group of the applicability of the Reed Report and associated General Electric internal data to the Perry facility's design and operation.

The Petition, as well as an accompanying Motion to Reopen the Record, are being treated pursuant to 10 CFR §2.206 of the Commission's regulations, and accordingly, appropriate action will be taken on the request within a reasonable time. With respect to Petitioner's request for an immediate suspension of the operation of the Perry facility, the Petitioner was notified by letter dated June 30, 1987, that, based on the staff's review of the Reed Report, there is no need to take such action. Copies of the Petition and Motion are available for inspection in the Commission's Public Document Room, 1717 H Street, N.W., Washington, DC 20555 and at the Local Public Document Room for the Perry Nuclear Power Plant located at the Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

Dated at Bethesda, Maryland, this 30th day of June, 1987
