Docket No. 50-346

Toledo Edison Company
ATTN: Mr. Don Shelton,
Vice President
Nuclear
Edison Plaza
300 Madison Avenue
Toledo, OH 43652

Gentlemen:

This refers to the routine safety inspection conducted by Messrs. P. M. Byron, D. C. Kosloff, and L. McGregor of this office on June 1, 1987 to July 31, 1987, of activities at Davis-Besse Nuclear Power Station authorized by Facility Operating License No. NPF-3 and to the discussion of our findings with Mr. L. Storz at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. With respect to Item A, the inspection showed that action had been taken to correct the identified violation and to prevent recurrence. Our understanding of your corrective actions is described in Paragraph 3.d.1 of the enclosed inspection report. Consequently, no reply to this violation is required and we have no further questions regarding this matter at this time.

Regarding the verbal change to a procedure described in Paragraph 3.d.2, a written response is required.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

8709300394 870909
