Glen Ellyn, IL 60137

Dear Sir:

I am writing to you to change our current NRC License (#24-01141-03). We would like to include "iodine 125 in units not exceeding 10 micro-curies each for use in in vitro clinical or laboratory tests".

This would be in accordance with conditions and limitations of General License Type 10 CFR 31.11.

I would also like to amend item #12 of our license deleting Alphonse Poklis (as he has left the University) and in replacement, Dr. Christopher Long.

Please send forms for our completion to:

Dr. Christopher Long  
Medical Examiner  
Toxicology  
601 South Brentwood Blvd.  
Clayton, MO 63105

Thank you for your consideration in this matter.

Sincerely,

Christopher Long, PhD
