Gentlemen:

Enclosed is the NRC license amendment which you originally requested in your letter dated October 17, 1986, and which we discussed in our letters to you dated November 12, 1987 and December 2, 1986, copies enclosed. Please note that only the Amersham Model AMC.26 source was approved for use in the Osteomap analyzer.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

Sincerely,

Beth A. Riedlinger

Gentlemen:

Enclosed is the NRC license amendment which you requested.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

It should be noted that the Osteo Map device was not added to your license at this time, as discussed in my letter to you dated November 12, 1986, copy enclosed. Once the manufacturer notifies you that the source and device registry sheets have been issued, you may resubmit your request and refer to Control No. 70474.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

Sincerely,

Beth A. Riedlinger

Gentlemen:

This is in reference to your request dated October 17, 1986 for amendment of your byproduct material license. In order to complete our review, we need the following additional information:

1. Our Headquarters staff is currently reviewing the 200 millicurie americium 241 source and the Osteo Map device which you described in your letter of October 17, 1986. We cannot add the source or device to your license until their review is complete. You may wish to withdraw this portion of your request and resubmit it at a later date. Refer to Control No. 70474 when you resubmit.
2. You should submit the procedure mentioned in 5.B. of Item 18-1, "Waste Disposal Procedures", which was attached to your letter dated October 17, 1986. Also, describe the counting equipment and the criteria used to determine whether test tubes may be disposed to normal trash.

We will continue the review of your amendment request upon receipt of this information. In order to continue prompt review of your application, we request that you submit your response to this letter within 30 calendar days from the date of this letter. Please reply in duplicate, and refer to Mail Control No. 70474.

Sincerely,

8704270448 Lp.
