Regarding: Amendment to NRC License Number 48-23534-01

Gentlemen:

We have enclosed a copy of our NRC license to stock sealed source light tubes containing Hydrogen-3. Our current license carries a maximum curie count level of 3,750 curies.

We are hereby requesting that this level be raised to 6,000 curies. As our business has grown and our sales have increased in the 15 state territory that we cover, we find that it is necessary for us to maintain a redistribution stock that, at times, will exceed our current maximum. In order to lower their curie count, factories try to push every possible order out of their doors by month end. Very often these orders are received here on the 30th and become our inventory. We work on a backorder system and the product is generally redistributed within several days of receipt.

I have enclosed the amendment fee of \$60.00 and will be happy to answer any questions that you might have in this regard. Please let me know your decision as soon as possible so that our year end inventory might be accomplished with all possible dispatch.

Sincerely,

JMJ SALES, INCORPORATED

Mary Jane Moss

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 40 and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.

Licensee			
1. JMJ Sales, Inc.		3. License number	48-23534-01
2. 2237 North Lake Drive Milwaukee, WI 53202		4. Expiration date	August 31, 1991
		5. Docket or Reference No.	030-29383
6. Byproduct, source, and/or special nuclear material	7. Chemical and/or physical form	8. Maximum amount that licensee may possess at any one time under this license	
A. Hydrogen-3	A. Sealed sources (Safety Light Corporation Model LAB-785)	A. Not to exceed 25 curies per device and 3,750 curies total.	
9. Authorized Use			
A. Pursuant to 10 CFR Section 32.51, the licensee is authorized to receive, store, and redistribute Safety Light Corporation Model 2040-XX self-luminous signs to general licensees as defined by 10 CFR Section 31.5, or equivalent provisions of an Agreement State.			

CONDITIONS

10. Licensed material shall be used only at the licensee's facilities located at 2237 North Lake Drive, Milwaukee, Wisconsin.
11. Licensed material shall be used by, or under the supervision of, John J. Moss, Mary Jane Moss, John H. Roberts, Julie J. Klug.
12. The licensee shall assure that each device distributed contains instructions and labels as required by 10 CFR Sections 32.51 and 32.51a. Labels and instructions provided by the manufacturer with sealed sources and devices shall not be removed or altered by the licensee.
13. The licensee shall maintain transfer records and submit quarterly transfer reports to NRC and Agreement States in accordance with 10 CFR Section 32.52.

Docket or Reference number	030-29383

14. The licensee shall conduct a physical inventory every six (6) months to account for all devices received and possessed under the license. The records of the inventories shall be maintained for two (2) years from the date of the inventory for inspection by the Commission, and shall include the quantities and kinds of byproduct material, manufacturer's name and model numbers, location of the devices and the date of the inventory.
15. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents including any enclosures, listed below. The Nuclear Regulatory Commission's regulations shall govern unless the statements, representations and procedures in the licensee's application and correspondence are more restrictive than the regulations.
- A. Application dated July 10, 1986.
